

MuxLab HDMI Econo Plus Extender Supports Greater Distance

Supports 1080p up to 150 ft via Cat5e Cable

Montreal, Canada — MuxLab Inc (www.muxlab.com), designer and manufacturer of security video and audio-video connectivity solutions for copper twisted pair, announces its latest addition to its AV connectivity portfolio.....**The HDMI Econo Plus Extender Kit (500401).**

Developed for the custom residential and commercial AV market, the HDMI Econo Plus Extender Kit provides allows one HDMI cable to be replaced by two (2) Cat5e/6 twisted pair cables. The 500401 features improved distance performance over the current 500400 by supporting 1080p up to 150 ft (45m) via Cat5e cable. Furthermore, the product supports 1080p Deep Color up to 90 ft (27m) via Cat6 cable.

The HDMI Econo Plus Extender Kit includes one Transmitter, one Receiver and one (1) power supply and comes with a two (2) year warranty. The product complies with HDMI 1.3a and FCC Class A standards.

The HDMI Econo Plus Extender Kit streamlines cabling in applications such as: home theatre, digital signage, boardroom projector systems and classroom training systems. The product allows pre-existing twisted pair to be used instead of costly single-use HDMI cable, thereby allowing HDMI equipment to access the structured cabling system for greater maximum investment return.
